ABOUT ME

I am a versatile software developer with over three years of experience, specializing in frontend development using **React JS** and **Next.js**, along with extensive experience in **WordPress** and other CMS tools. Throughout my career, I have worked on a wide range of projects, from developing **design systems** to building **React Native apps** and **institutional websites**.
I have experience working as a **fullstack developer**, applying my skills across both frontend and backend development, and am passionate about creating user-friendly, scalable, and high-performance web applications. I am always eager to expand my skill set by tackling new challenges and contributing to innovative projects.
